Paving the way for the future
of Short Sea Shipping

Welcome to MOSES newsletter No2 | June 2021

Check out our latest news and don't forget to follow us!

This is the second issue of MOSES Newsletter!

We firmly believe that staying in touch, especially in these challenging times we are all facing, is of great importance. We are looking forward you to connecting with us via our social media platforms and discussing any questions that may occur and/or any information you may require about the MOSES project!

Yours sincerely,
MOSES team

"Coming together is a beginning, staying together is progress and working together is success" (Henry Ford)

Upcoming events

As the COVID-19 pandemic is still in the limelight, many events around the world keep being postponed or adapted to virtual attendance. We keep an eye out for the upcoming opportunities and we try to adapt to this dynamic situation. Any changes and updates related to MOSES communication/dissemination activities and event attendance will be reflected on our website <https://moses-h2020.eu/>. Undoubtedly, we face a real challenging time, but we take comfort in knowing that when this global outbreak recedes, live events will return stronger than ever.

Stay in touch and we promise to meet again F2F in the near future!
