Executive Summary

This deliverable is dedicated to MOSES Knowledge and IPR (Intellectual Property Rights) management encompassing specific procedures for managing background and foreground knowledge, as well for managing IPR issues related to the technical results of the project. The management of background knowledge have been described in detail in the Consortium Agreement, which is the basic reference of this report, and includes the use of knowledge, pre-existing know-how, and foreground knowledge generated by any member of the Consortium that will be made available to the Consortium on a royalty free basis, as far as it is required to deliver the expected results of the project. In addition, Joint Ownership issues will be properly addressed while all relevant procedures will be described in detail in the current deliverable.
